

Regulatory and Health Warnings

General Description

Regulatory and Health Warnings applying to materials used in the manufacture and construction of fire protection products are provided herein as they relate to legally mandated jurisdictional regions.

WARNING

STATE OF CALIFORNIA, USA

Installing or servicing fire protection products such as sprinklers, valves, piping, etc. can expose you to chemicals including lead, nickel, butadiene or acrylonitrile which are known to the State of California to cause cancer or birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

EUROPE

REACH – Substances of Very High Concern (SVHC) Warning To fulfill our obligation towards Article 33, in accordance to the European REACH Regulation No 1907/2006 EC, we hereby inform you that fire protection products such as sprinklers, valves, piping, etc. can contain lead which is a Substance of Very High Concern mentioned on the Candidate List.
